課程大綱

- 一、硬體規格與基本操作
- 二、首頁及狀態列
- 三、筆記應用程式
- 四、系統設定
- 五、補充說明

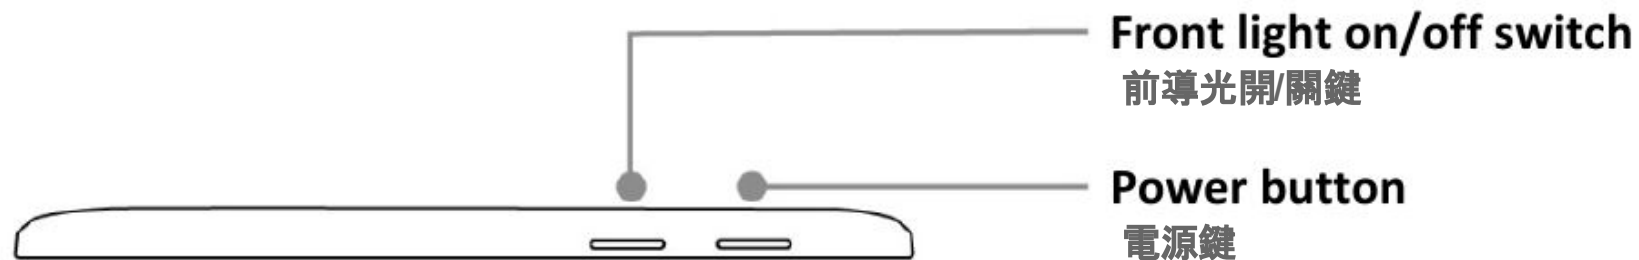

硬體規格與基本操作

規格

Feature	Description
螢幕尺寸	7.8in
處理器	Quad-core ARM Cortex-A53 1.5GHz
記憶體RAM	4GB
儲存空間	64GB
尺寸	195.51 x 148.42 x 8.19 mm
介面	USB-C
作業系統	Android 12
解析度	1404(H) x 1872(V) pixels, 300 ppi
手寫觸控	WACOM 4096 階感壓觸控筆
電池	2500mAH
無線網路	802.11 a/b/g/n/ac, 2.4GHz/5GHz (1T1R)
藍芽版本	BT 5.2

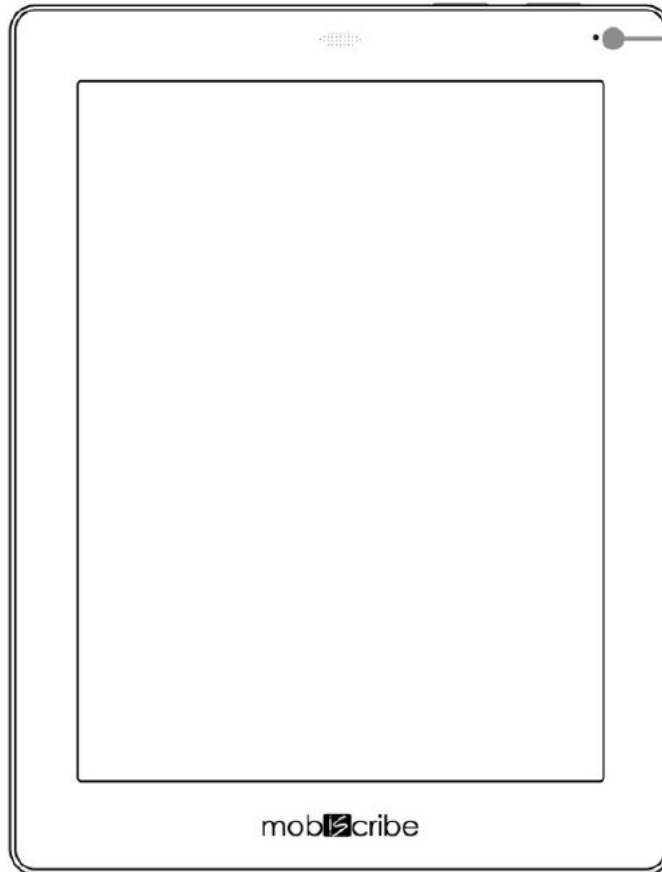

1.3.1 Top View

上方視角

1.3.2 Front View

正面視角

Status light 狀態燈

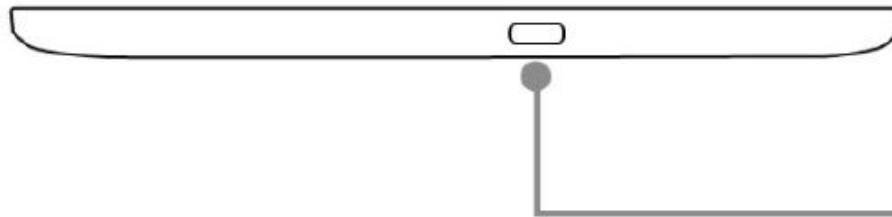

- Flashes **green** when system is loading. Turns off when system is running.
- Solid **red** when charging. Turns off when charging is complete.

綠燈：開機/系統運作中

紅燈：充電

1.3.3 Bottom View

下方視角

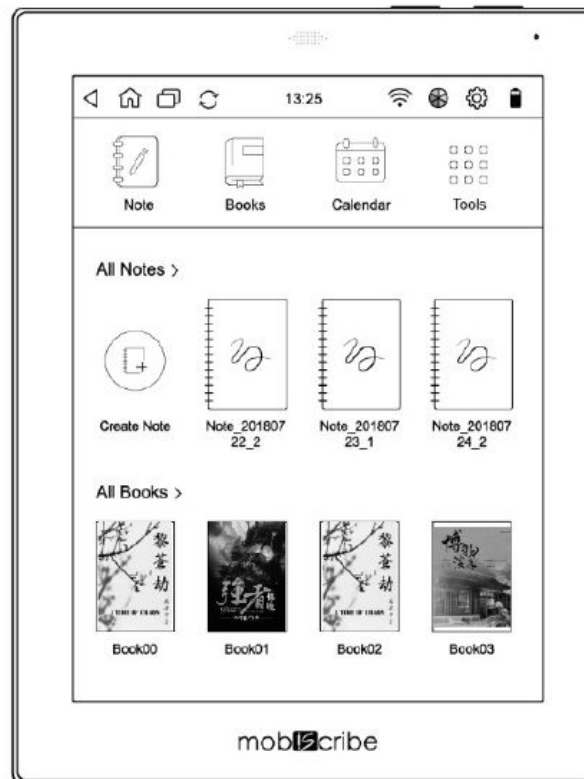

Type-C USB port

- For charging the battery.

Type-C USB 接口：充電/資料傳輸

1.5 Powering On 系統開機

To power on the Electronic Notebook, press the **Power**  button. The status light starts flashing **green**. When loading the system is complete, the status light turns off and you will see the Home screen.

■ 開機：長按電源鍵，指示燈閃爍綠燈即表示系統正在開機中。

1.5.1 Sleep Mode 系統休眠

By default, the Electronic Notebook enters the sleep mode automatically after 5 minutes of inactivity.

To enter the sleep mode manually, short press the **Power**  button. While in the sleep mode, press the **Power**  button again to resume.

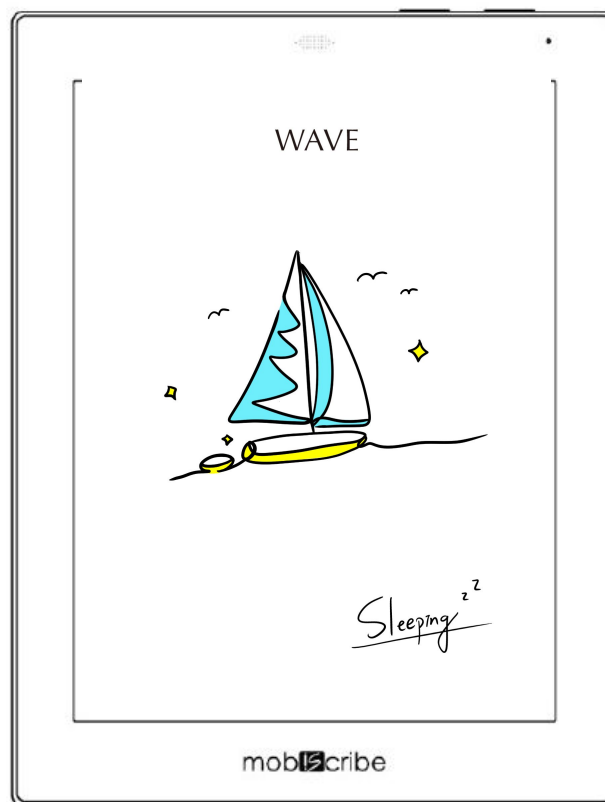

Note: The automatic screen timeout time can be adjusted in the  > **Display** > **Screen timeout** menu.

■ 手動休眠：短按電源鍵系統將進入休眠，再短按電源鍵即可重新喚醒

■ 自動休眠：預設為 5 分鐘

可以至以下設置：

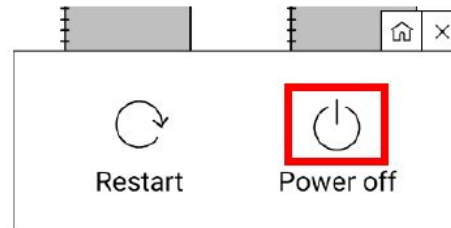

設定 > 螢幕 > 螢幕自動關閉

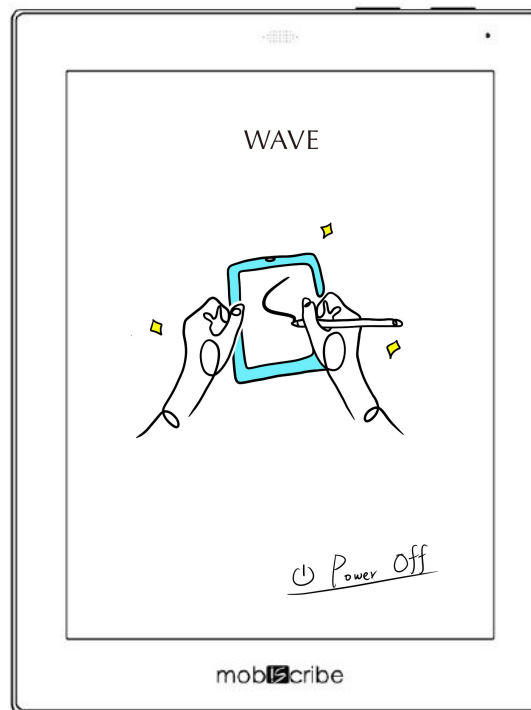

1.5.2 Powering Off 系統關機

To power off the Electronic Notebook, do any of the following:

- Long press the **Power**  button until the Power menu is displayed. Then tap **Power off**.

- Tap Quick menu  on the Home screen and next tap .

■ 長按電源鍵，系統將顯示關機選單

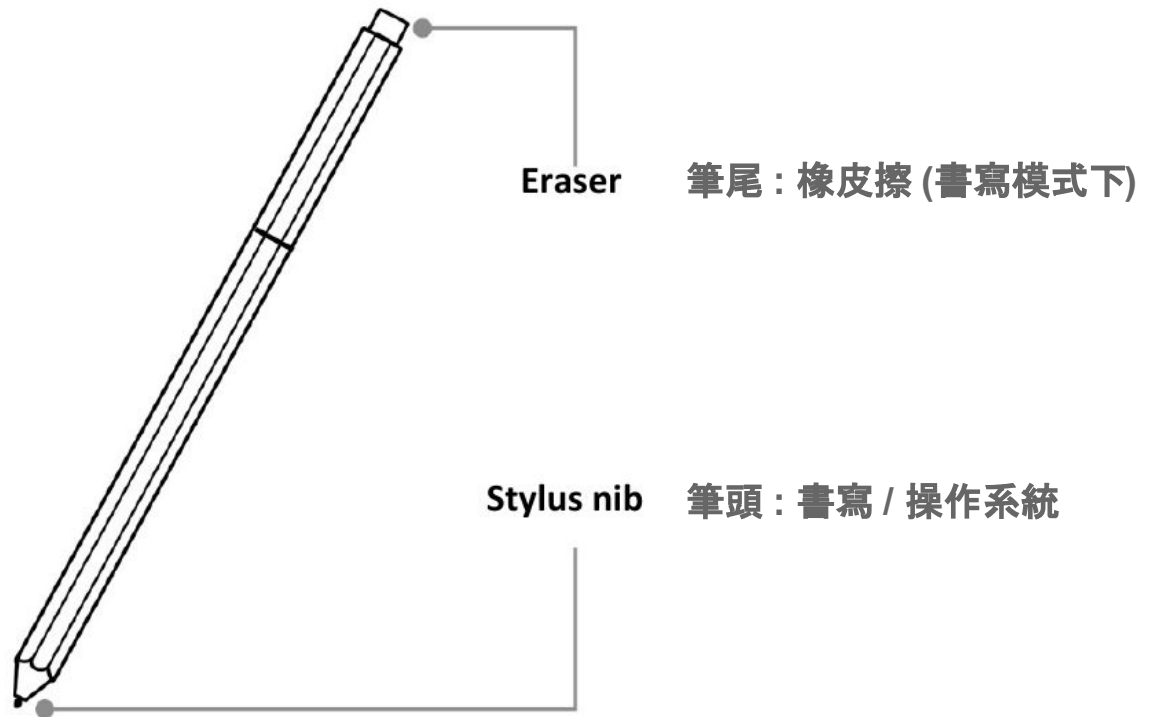

■ 狀態列 > 系統快速設定 > 關機選項

■ **強制關機**：長按電源鍵10秒後 系統將
強制關機 (系統當機處理方式)

1.6 Stylus 手寫筆

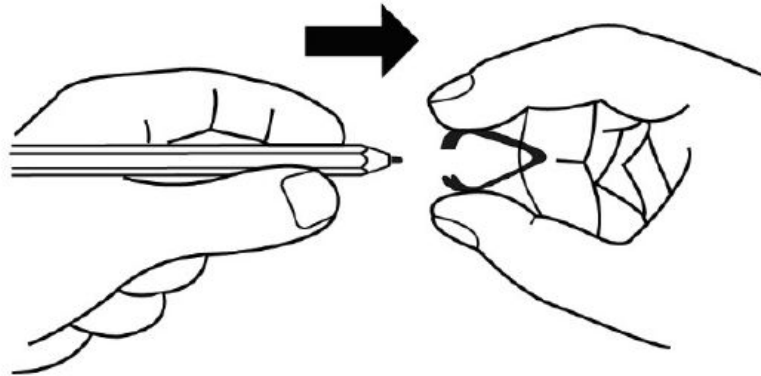

Your Electronic Notebook is shipped with a stylus pen, three refill nibs, and extractor tweezers. Use the stylus to write notes or select items on the touch screen.

Note: You can also select items on the screen with your fingertip.

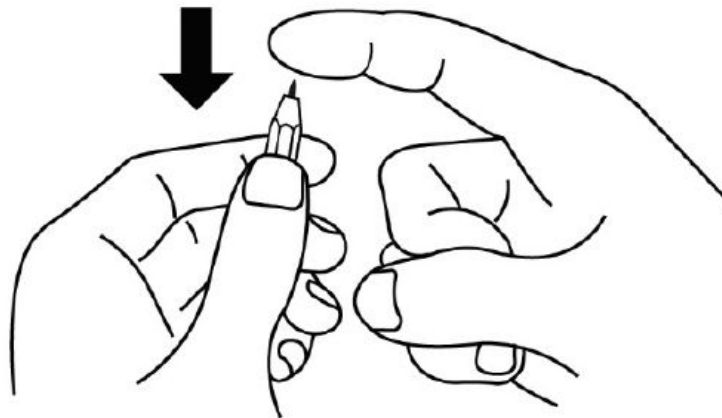

To replace the nib, do the following: 更換手寫筆筆頭

1. Use the supplied extractor tweezers to remove the nib from the stylus.

2. Insert the new refill nib into the stylus.

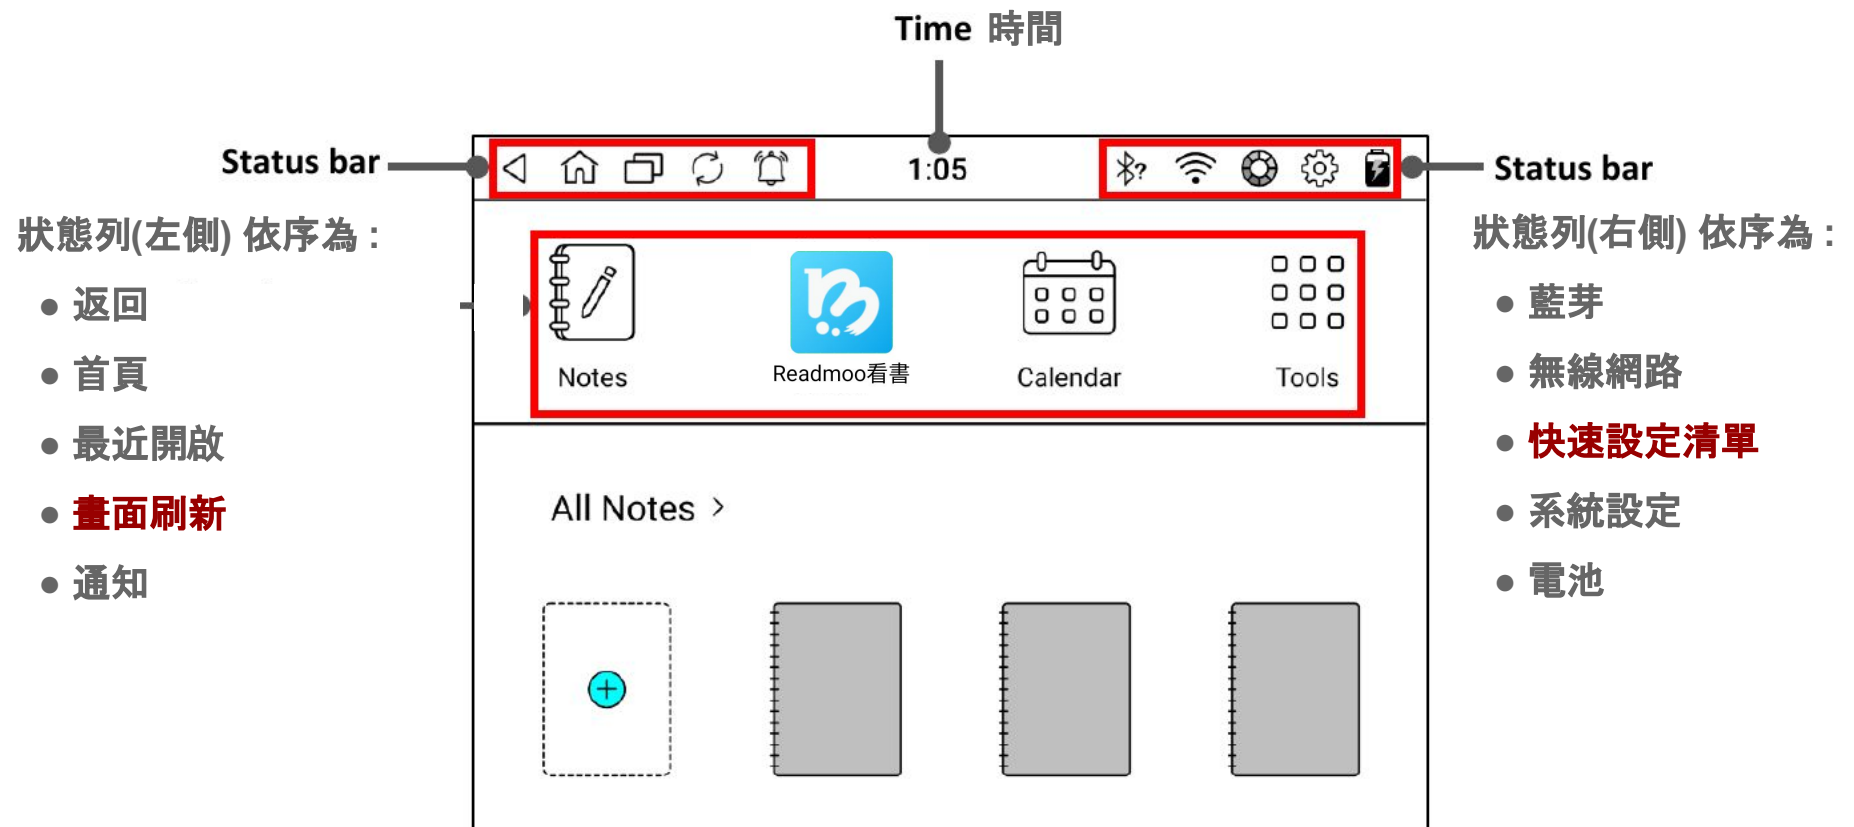

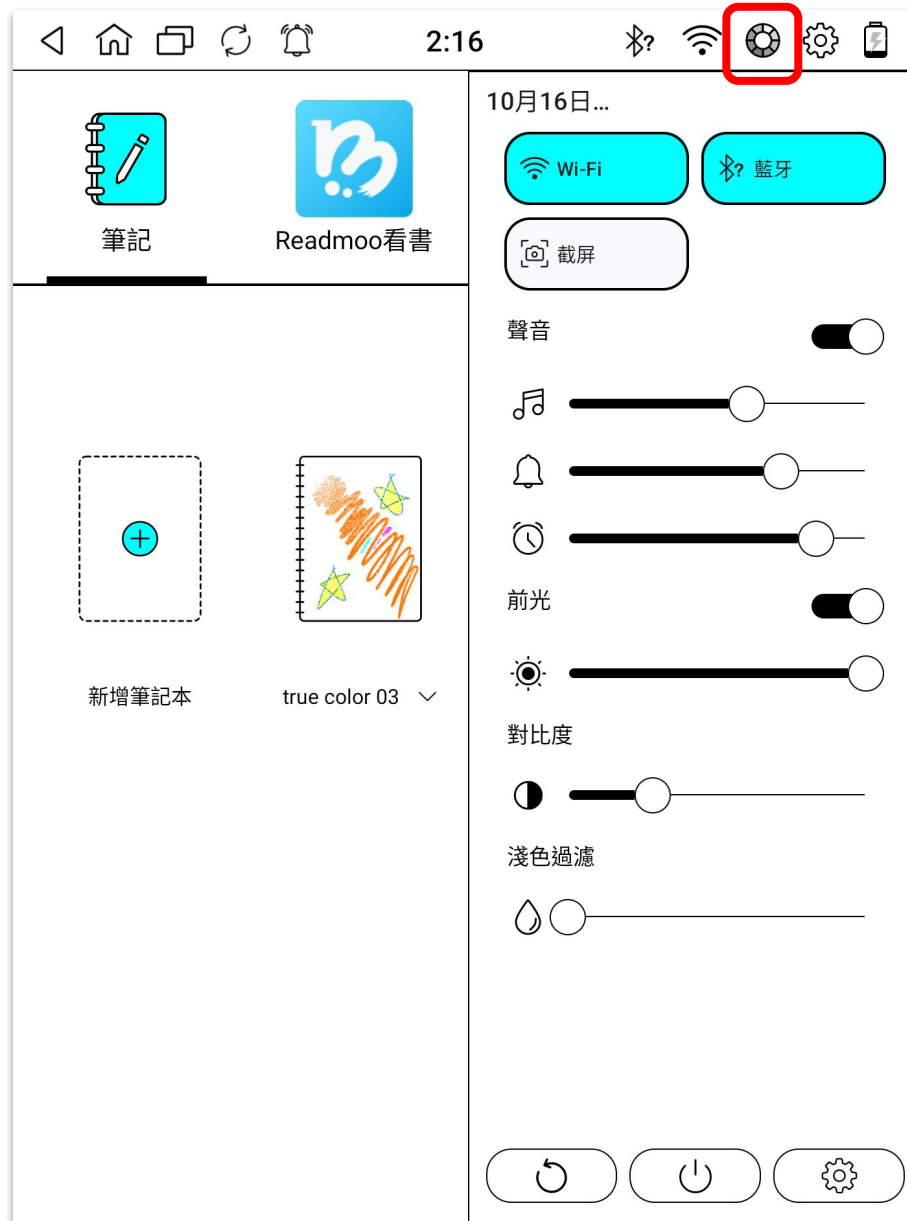

首頁及狀態列

2.1 Home Screen Overview 首頁介紹

Home screen is the first screen that you will see after powering on the Electronic Notebook.

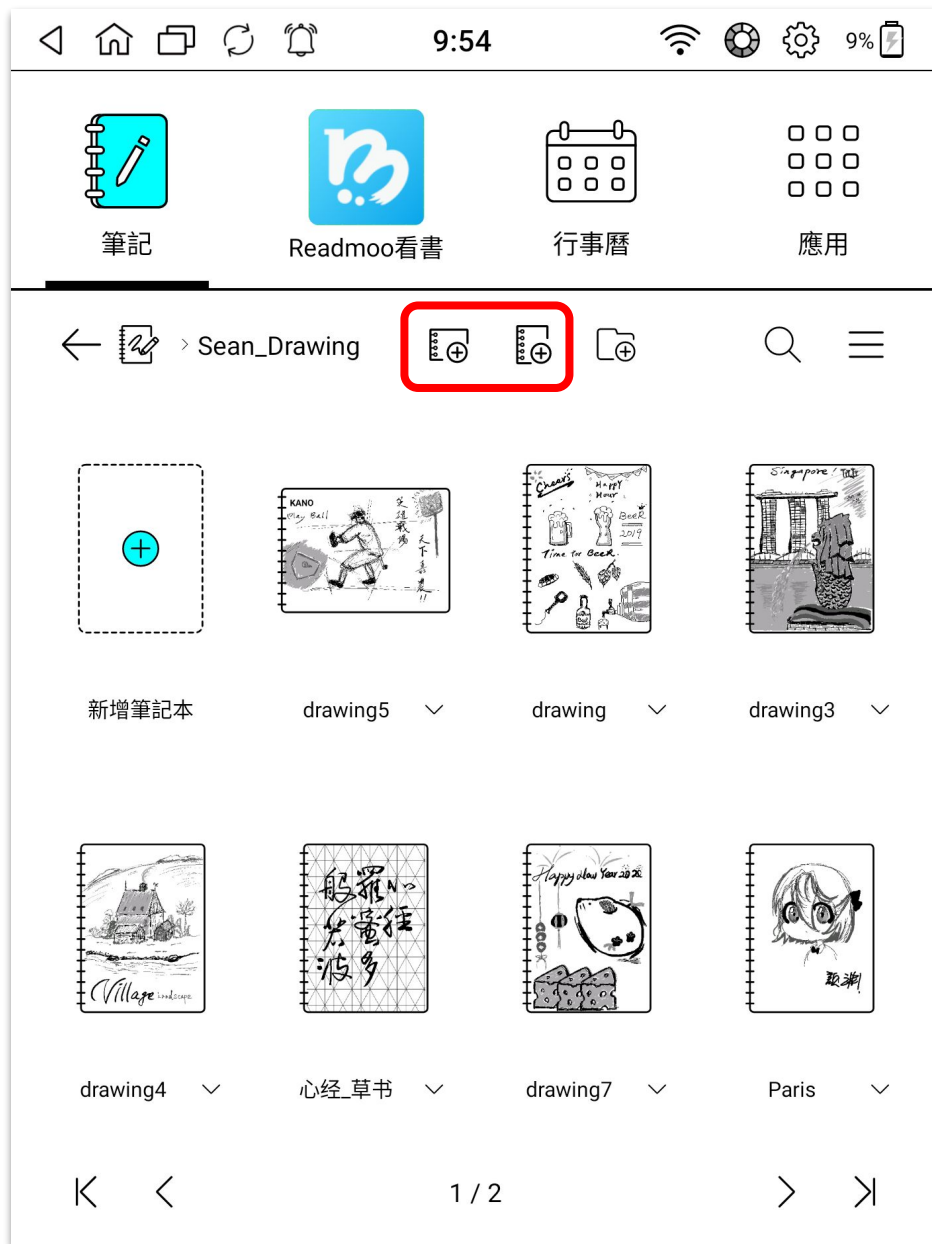

On the Home screen, you can access and view the following items:

最多可新增自定義3 隻筆

- : Select the eraser type. The available options include **Stroke eraser** () for erasing strokes, **Lasso eraser** () for erasing the selected area, **Eraser by size** () , Eraser that clears the current page () .

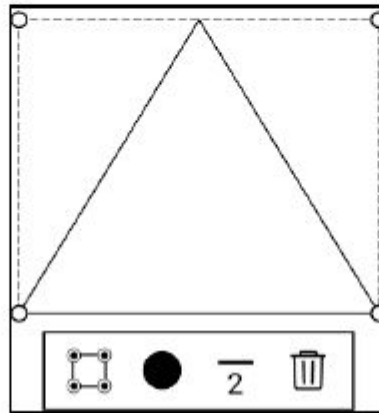

橡皮擦工具支援 4 種方式：
筆劃、套索、部分、整頁

- : Select an area on the page and perform various actions. After selecting the area, tap / to copy/paste it, tap  to automatically detect the object (not available for text), tap  to cut it, tap  to recognize the handwritten text and insert or replace the current text (not available for objects), tap  to directly replace the handwritten text with the recognized text (not available for objects), tap  to delete the selected area. Tap  to rotate the selected area.

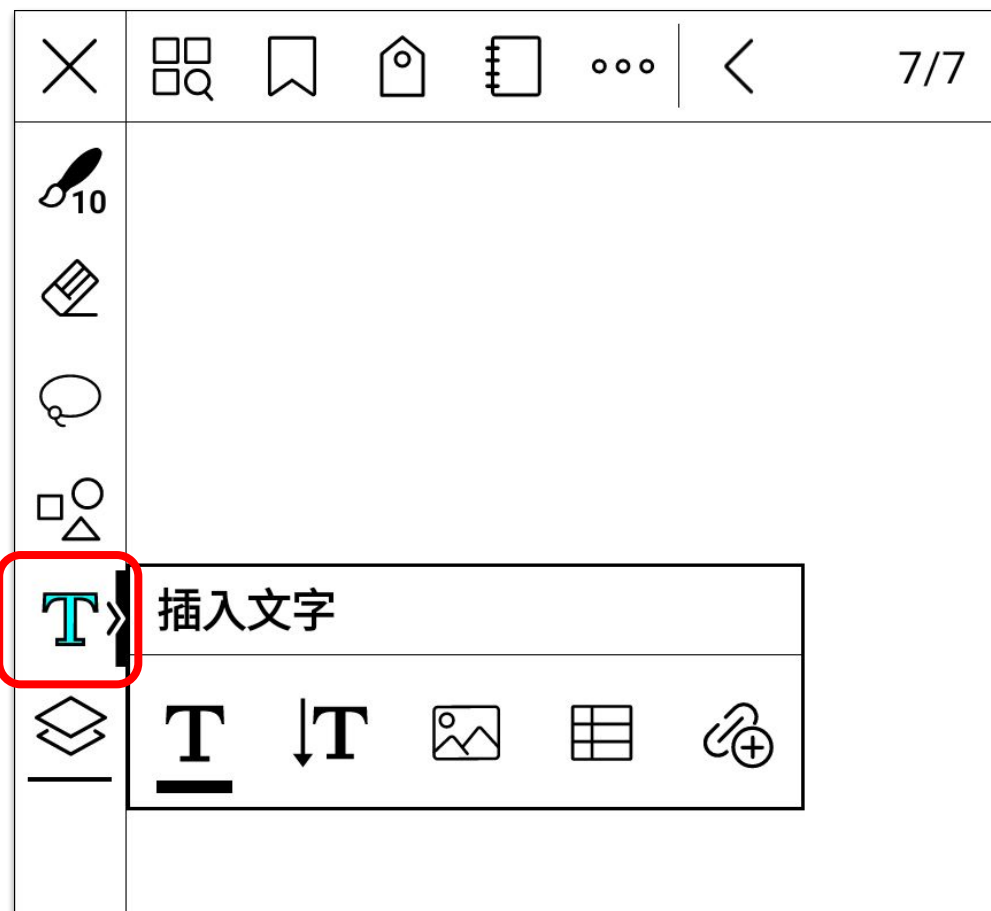

套索工具：除了可以旋轉筆劃之外，依序為複製、剪下、手寫辨識(純文字、圖形及文字)、刪除

- : Add geographical shapes to your note. Select the shape among **Rectangle** () , **Ellipse** () , **Triangle** () , and **Line** () . Draw the shape on the page and then tap  to ungroup the shape's boundary points and modify each point individually, tap  to select the line color, tap  to change the line thickness, or tap  to delete the shape.

圖形工具：正方形、圓形、三角形、直線

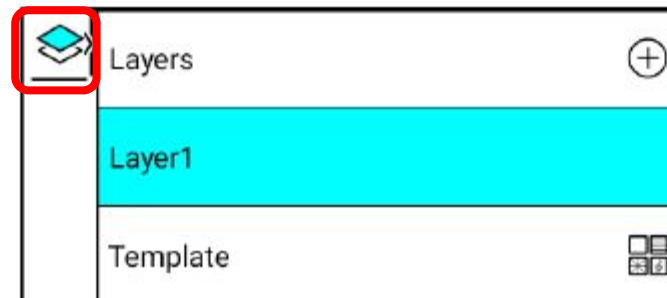

插入工具 依序為：

文字方塊、文字方塊(直排)、圖片

表格、超連結(連結至其他筆記頁面)

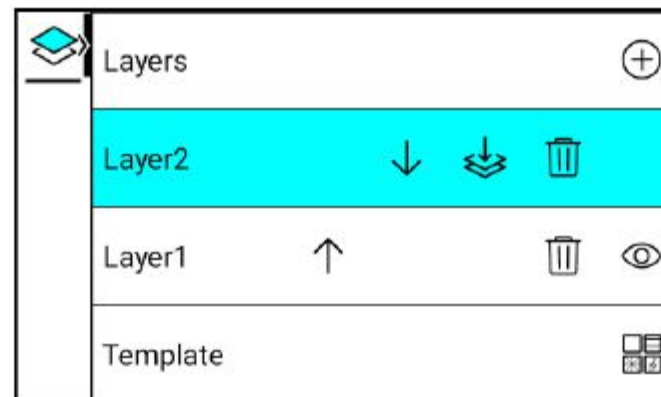

- : Add layers to your note. Layer 1 is the current note's page. Tap  to add another layer. Tap  to add a template to the Layer 1 or to the new layer.

圖層工具 (包含背景設定)

每頁最多可擁有 5 個圖層

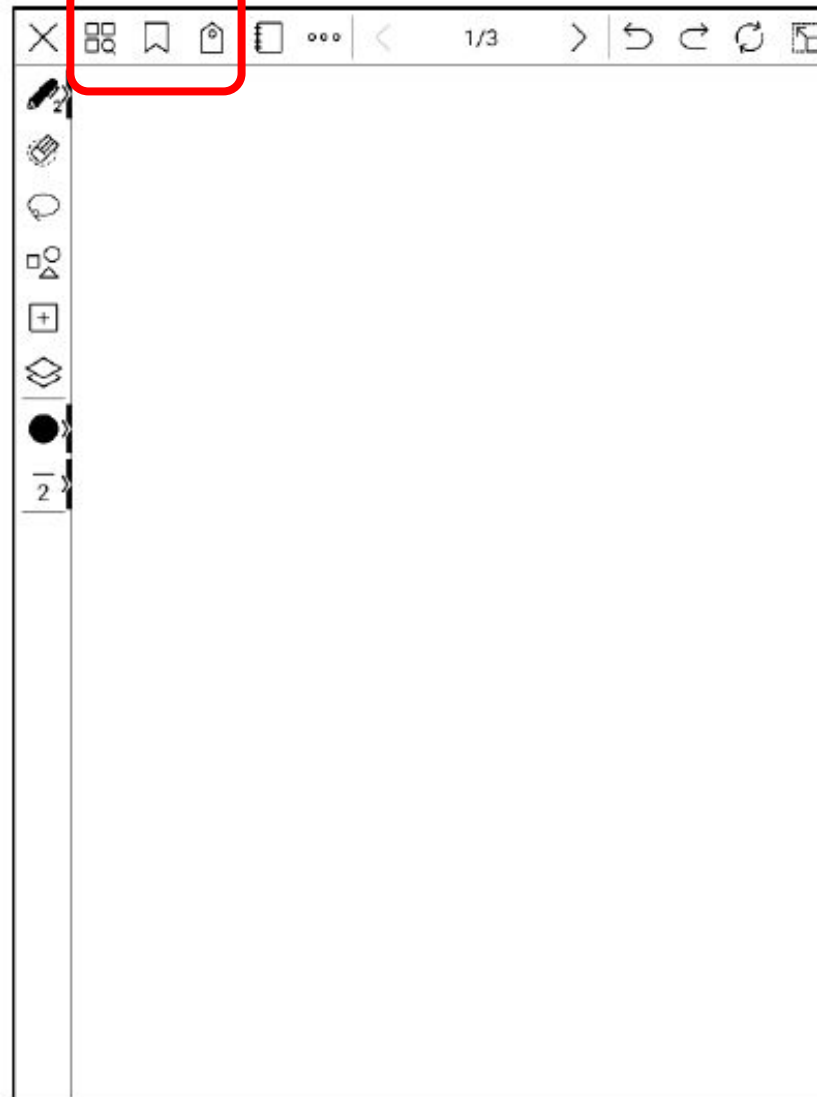

After the new layer(s) are added, tap / to move the selected layer up/down respectively, tap  to merge the layers (when prompted to confirm merging, tap **OK**), tap  to hide the layer, tap  to unhide the layer, or tap  to delete the layer (when prompted to confirm deletion, tap **OK**).

圖層控制：

上下移動圖層、圖層向下合併
刪圖該圖層、屏蔽該圖層

To close the note page, tap X. Your work is saved automatically.

縮圖模式：包含搜尋筆記內頁

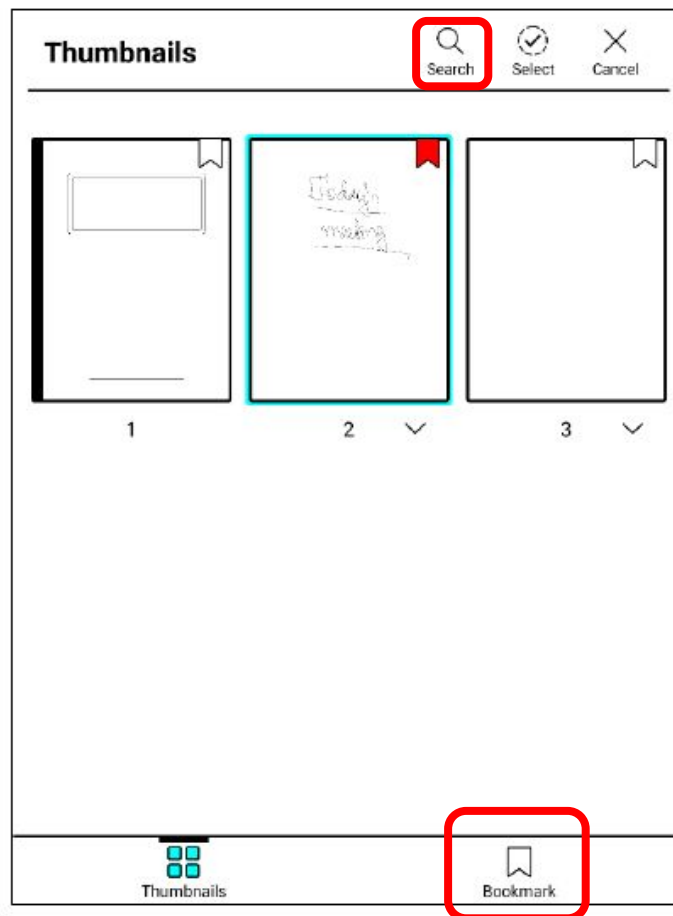

快速頁籤(方便搜尋用)

自訂標籤(方便搜尋用)

○ **Search:**

- i. Tap on the **Thumbnails** tab to search for handwritten text on any of the current note pages or tap on the **Bookmark** tab to search for bookmarks on any of the note pages.

Note: Pages that include bookmark(s) are marked with the  icon.

縮圖模式：

搜尋功能包含手寫辨識及自訂標籤

頁籤選項可快速篩選出已被標記頁籤之頁面

- ii. Tap **Search**, enter the search word and tap .

Note: If you need to change the OCR language for the search, tap  and select your preferred language.

縮圖模式：

搜尋功能包含手寫辨識及自訂標籤

Recognition (OCR) language, for example English (United States) (by default). In this menu, you can change your handwritten text recognition language.

Tap **Other language** and next select the language from the list. The language will be downloaded to your Electronic Notebook.

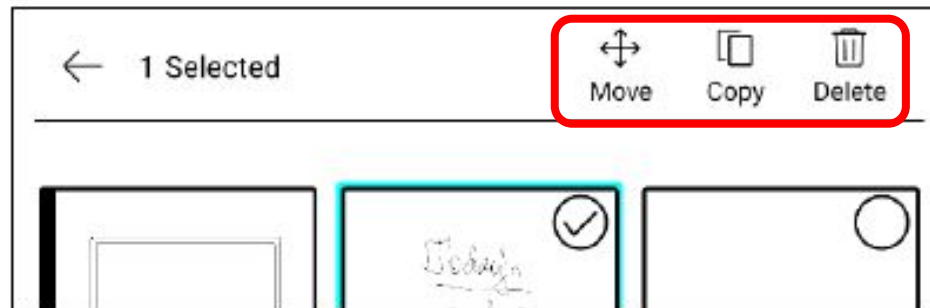

Note: *Make sure your Electronic Notebook is connected to the Internet if you want to change the OCR language.*

手寫辨識支援多國語言，預設為英文

可透過「更多語言」選單下載繁體中文

iii. Tap **Select** and then select the note page(s) you want to **Move**, **Copy**, or **Delete**.

縮圖模式：

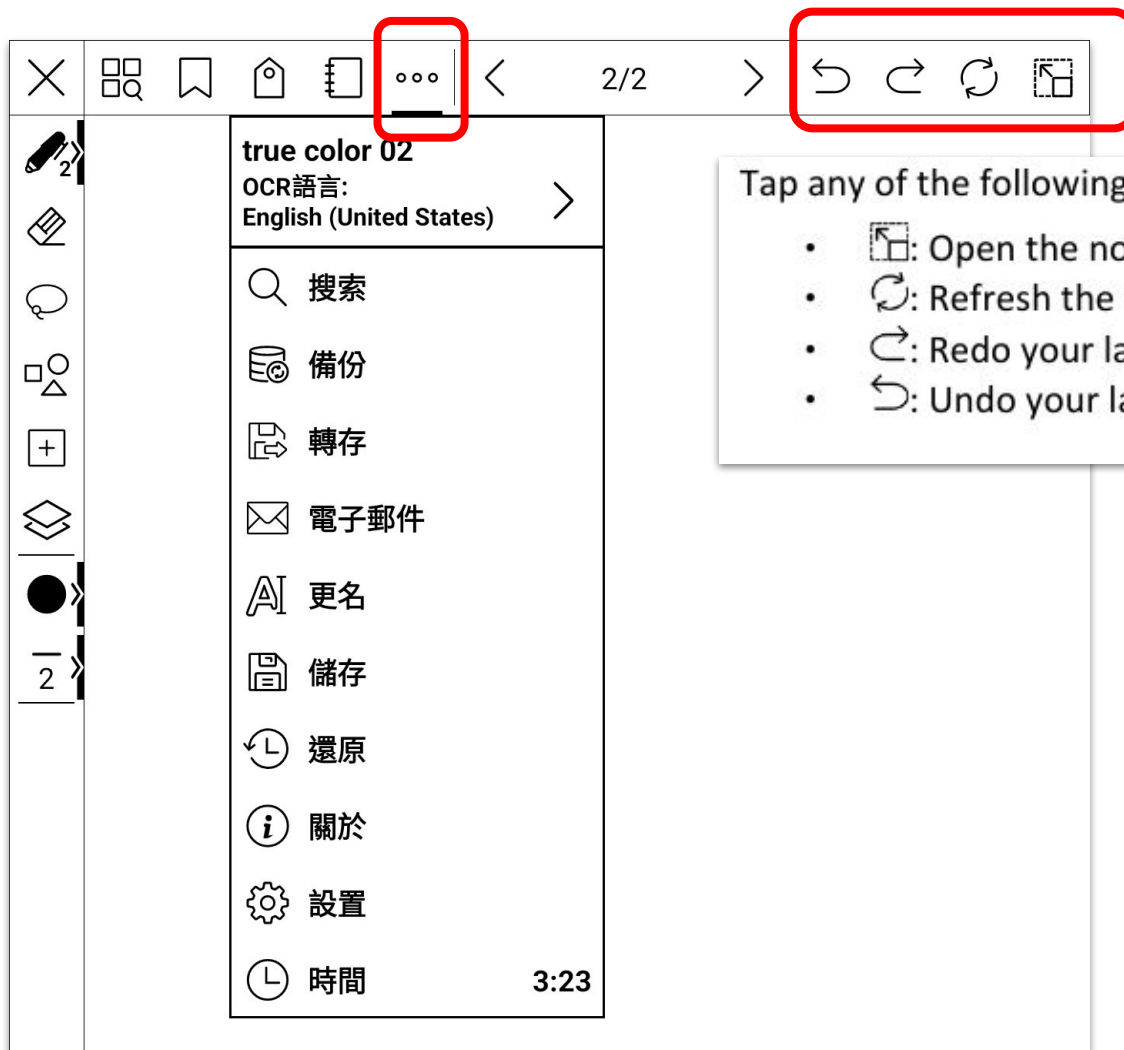

選取功能可以移動頁面

If you want to move or copy the page, then tap on the column next to the page you want to move it or copy as shown below:

筆記頁控制項

Tap any of the following icons:

- : Open the note page in full screen (hide the menus) 全螢幕
- : Refresh the note page. 刷新畫面以清除殘影
- : Redo your last action. 重做最後一個動作
- : Undo your last action. 撤銷最後一個動作
